

BIOGRAPHY

Dr. Desirée Cox, MD, PhD is a Rhodes Scholar, Medical Doctor, Thought-Leader, Scientist, Visual Mixed Media Artist, and Founder/CEO of the Regenerative Art brand ArtRegen.

The first Bahamian Rhodes Scholar and first woman to win a British Caribbean Rhodes Scholarship, she has earned degrees from McGill University (Canada), Oxford University (UK) and Cambridge University (UK). She is also the CEO and founder of HEALinc360 (<https://www.healinc360.com>) and the HEALinc Future Health Innovation Summits, a movement-based organization with the mandate of championing a future health paradigm where medical therapy is driven by personal health and regenerative wellness (<https://www.healincfuturehealthsummit.com>).

For the past 15 years, Dr. Desirée has been painting regenerative art, some of which is now hanging next to an original Picasso. The objective of her work is to help accomplished professionals revolutionize their lives with sophisticated art that lowers blood pressure, lifts spirits, and births great conversation. Images of her oil-on-canvas paintings have been featured in world-renowned magazines and juried publications, such as British Vogue (2021), House & Garden (2021), Tatler (2021), and International Contemporary Masters. Her transformative art hangs in private collections all over the world and has been featured in more than 25 solo and group exhibitions in New York, Las Vegas, London, Shanghai, and the Bahamas. Her next solo exhibition is set to be held in Miami in August of 2021.

BIOGRAPHY

A true polymath, Dr. Desirée's unique understanding of science, biotech, and the aesthetics of regenerative medicine plays a pivotal role in her artistic expression. She is a Scientific Advisor to several biotech companies focused on Regenerative Medicine and Longevity; she has also developed clinical trials for testing the efficacy of various cutting-edge future health innovations and has published scientific articles in various trade journals. Dr. Desirée has held clinical and academic positions as university professor and psychiatrist at prestigious institutions in the UK, and she has consulted major Pharma companies such as Amgen, GSK and Novartis on strategic, regulatory and R&D aspects of the development of pharmaceutical medicines. From 2015 to 2021, she spearheaded the development of a fast-track regulatory system for Stem Cell and Regenerative Medicines and Medical Devices in The Bahamas, and she chairs the National Stem Cell Ethics Committee in The Bahamas.

Dr. Desirée has been recognized by the British Medical Journal as a “Renaissance Woman” for her application of psychological medicine to real world problems. In January of 2019, she was one of five recipients of the International Regenerative Medicine Action Award at the World Stem Cell Summit, held in Miami, Florida. In April of 2018, Dr. Desirée was invited to present at the prestigious 4th Annual Vatican Conference “Unite to Cure: A Global Healthcare Initiative,” alongside speakers such as Tony Robbins, Dr. Peter Diamandis, Dr. Sanjay Gupta, and Dr. Deepak Chopra. Dr. Desirée has also been a guest lecturer at a number of respected universities and academic institutions, such as Oxford University, La Sorbonne University (Paris, France), and the Hong Kong Polytechnic University. She is a former Honorary Professor at University of Exeter, UK and a member of the Department of Biomedicine, Rutgers University, USA. Dr. Desirée is currently an adjunct professor at University of California, Irvine, USA.

BIOGRAPHY

Much of Dr. Desirée's artistic vision is also rooted in her African and Caribbean ancestry, with the progressive Bahamian performance art of "Junkanoo" being at the forefront of her energetic color palette and abstract subject matter. A native Bahamian, she pays homage to the African diaspora and her Caribbean descent through her active participation in Bahamian-based arts, biotech, and regenerative wellness spaces. At the 40th Independence Celebrations in 2013, the Bahamas Government honored Dr. Cox by issuing a 70-cent stamp into circulation bearing her photograph.
